

Cellular and Molecular Mechanisms in AD and Stroke

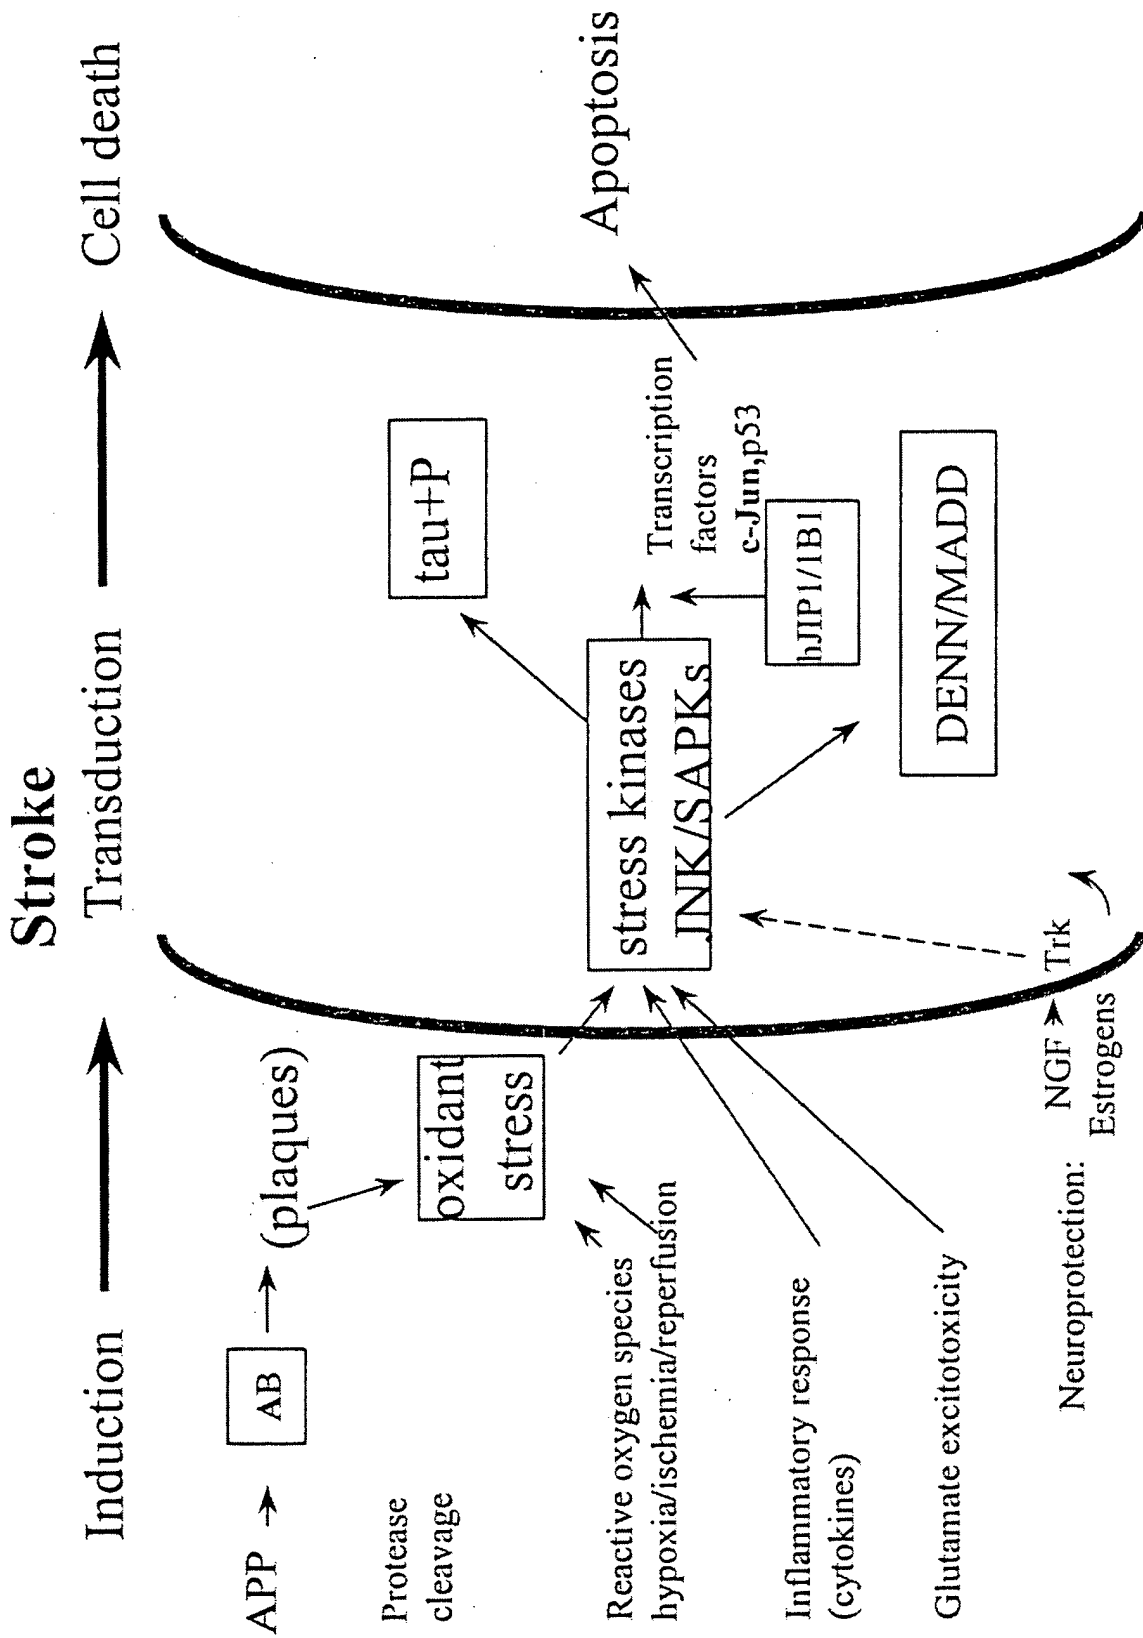

FIGURE 1

Human JIP-1/IB1

- ▨ JBD: JNK Binding Domain
- SH3 Domain
- PID: Phosphotyrosine Interaction Domain

FIGURE 2

A. JNK3 phosphorylates clone 2.5 **B.** Clone 2.5 inhibits phosphorylation of c-Jun by JNK3

FIGURE 3

Multiple Tissue Distribution of Human JIP-1/IB1

FIGURE 4

Anti-hJIP-1

- A. rat hippocampus
- B. human cerebellum (normal)
- C. human cerebellum (hypoxic)

FIGURE 5

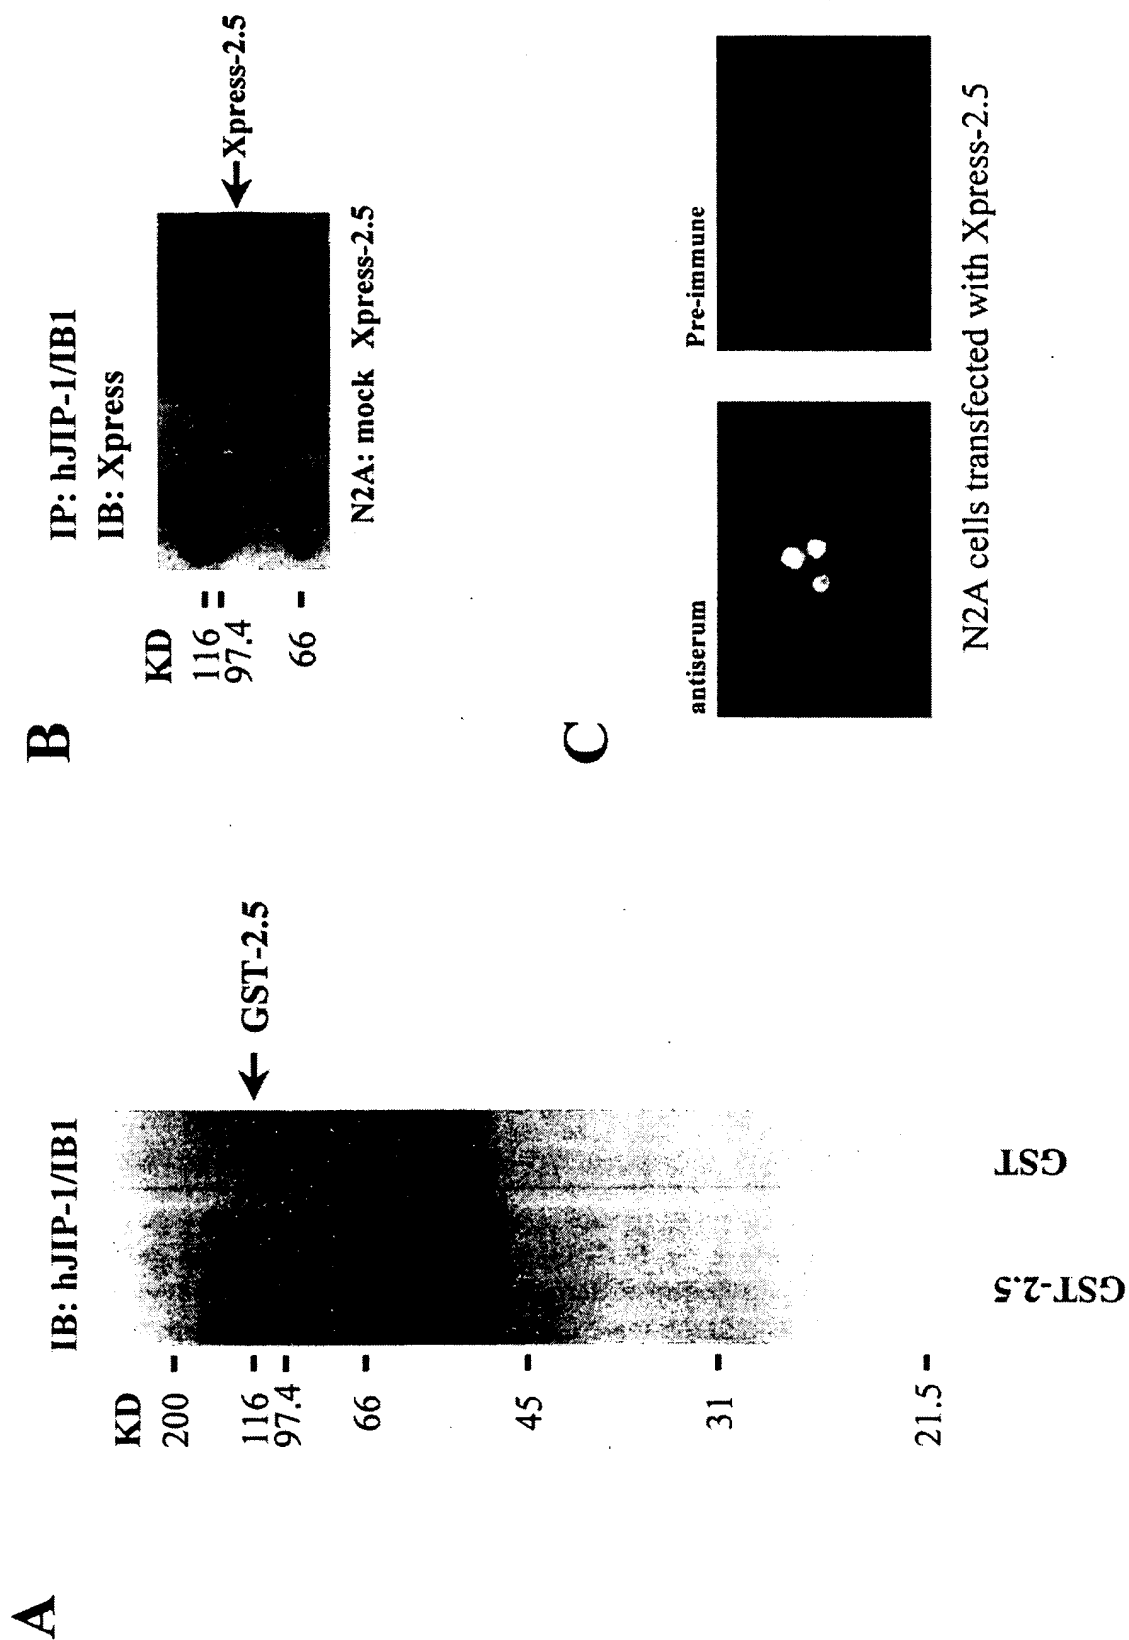

FIGURE 6

Rat Hippocampal Organotypic Culture

FIGURE 7

Organotypic Cultures: Rat Hippocampus

H & E

A. Hypoxia - 2 hrs.

B. Hypoxia - 2hrs.

C. Hypoxia/R - 4 hrs.

D. Normal - 4 hrs.
